**REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The rejections of paper dated 3/31/04 are withdrawn due to applicant's arguments in paper dated 8/18/04 about the differences between formic acid and acetic acid. The closest art is Saito (US Patent #6,100,403 & #5,952,509) and Huber (US Patent #5,585,495). Saito teaches compounds such as compound IV being reduced to compound V as follows

without the use of formic acid. Huber teaches the process of making compounds of formula I from compounds of formula II as follows

also without the use of formic acid. Due to this, the instant claims are free of prior art.

Claims 1-22 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
